

Dec 15/99

Dear FDA Commissioner Henry 8 '00 JAN -6 112:21

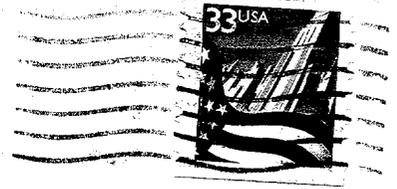

I'm very concerned about the U.S.A. policy of using antibiotics to promote growth in animals and its link to antibiotic-resistant diseases in human. I've seen it each year in the children that I watch in my daycare at home-facility where children's antibiotics do not cure their ear infections.

I urge you to follow the lead of the European Union and immediately ban animal uses of growth-promoting antibiotics used in human medicine. If Europe can do it, so can we!! Sincerely Dini Schut
